

Go-go ultra

This revised unit of Pride's lightweight mobility scooter comes complete with a 360 degree swivel chair and is comfortable for long rides.

This 4-wheel version offers increased stability over the 3-wheel version.

The batteries can be removed from the scooter and recharged separately – ideal if you need to leave the scooter in the boot of a car overnight while charging the batteries in your home.

Easily transportable – dismantles quickly into 4 main sections and basket.

Heaviest piece weighs only 15kg.

Has 7.5" solid rubber wheels and 1.75" ground clearance – best suited to flat surfaces.

New ergonomic U-shaped handle offers greater comfort and maneuverability.
